

Hall Usage Briefing Note for Leaders.

Access

- When the doors are unlocked and opened, alarm will sound. Disable alarm on left hand side on wall beside light switch. Code is the same as others on site.
- If keys are forgotten, then there is a key safe on the external wall. Code as others.

In operation

- Regularly check the hall risk assessment located in the file in the kitchen and make all leaders aware of the hall specific safety precautions identified within the document.
- Internal door keys and keys for trailer are in the key safe on wall in kitchen. Code as others.
- Spare toilet roll, bin bags and paper hand towels are in bottom cupboard on the right as you enter the kitchen.
- Please let the Group Executive know if any of these need replaced.
- Hall heater switches are located beside the light switches just outside the hall.
- Brushes, Mops etc are available from the broom cupboard on the left of the corridor with the section cupboards.
- The games cupboard is located in the same corridor.
- The fire alarm panel is located within the broom cupboard. Instructions for use are on the door of the cupboard.
- Practice fire drill should be held by each section, approximately once every term.
- There is a communal first aid kit located in the kitchen, please ensure the group executive are informed if anything needs replaced.
- An accident record book is located in the kitchen.
- The electrical panel is located in the broom cupboard. The electric heaters often trip and can be reset from this board.
- Section pigeon holes are located in the committee room.
- A digital projector and screen are stored in the committee room, please return after use.

Egress
